

### 7.3 Institutional Distinctiveness

#### **United Institute of Technology College aspires to become an institution known for**

1. Promoting Industrial projects for students to learn in contemporary technology
2. Students are provided with a financial assistance, encouraging their academic performance.
3. Various cultural activities and carnival are done to show case students talents and their uniqueness in various aspects.
4. Preparing final year students as Industrial Ready Engineers by providing value added courses in the respective department

In their final year of study, the students take up manufacturing ventures for a semester. The institution assists students in taking up projects in reputable industries in and out of the state, with the support of the MoU partners and advisory board members.

- ✓ Value added courses are interwoven in the time table and handled by the center for upskilling and empowerment
- ✓ In-plant Training (Summer & Winter)
- ✓ Workshops
- ✓ Scientific Quiz System
- ✓ HR Summits
- ✓ Assistance to students to participate in different projects

Students are encouraged with a stipend of maximum Rs.10000. The stipend varies with categories like

- ✓ Best performer in academics
- ✓ Best performer in Co-Curricular activities
- ✓ Best performer in Social service activities

To be an extra ordinary student one has to show his talents not only through academics but also by cultural activities. To show case their built-in talents and to express their religious uniqueness various cultural activities are done like

- ✓ Onam Celebration - Cultural Activity
- ✓ Pongal Celebration - Cultural Activity
- ✓ Carnival – Students gathering (Talent show)

Various Value added programmes are included in the general time table to make students to learn about special tools related to core industries and to make them industry ready engineers. MoU has been signed with leading industries to understand the technological gap between the industries and institute for training the students and faculty members.
