Report

Event : International Day for Elimination of Violence Against Women

Date : 25.11.2022

Women Empowerment cell (WEC) of United Institute of Technology organized an event on 25th November 2022 commemorating the international day for Elimination of Violence Against Women at Seminar Hall. The event was coordinated by Dr. D.Gokila, Secretary and Dr.C.Sonia, coordinator of WEC. The event started at 4:00 pm and ended at 4:30 pm.

The Secretary pointed out that violence against women and girls is the most pervasive human rights violation in the world. Every 11 minutes, a woman or girl is killed by an intimate partner or family member — and we know that other stresses, from the COVID-19 pandemic to economic turmoil, inevitably lead to even more physical and verbal abuse. Women and girls also face rampant online violence, from misogynistic hate speech, to sexual harassment, image abuse and grooming by predators.

Dr.P.Sindhuja, Head of department of Computer Science and Engineering in her words marked that this discrimination, violence and abuse targeting half of humanity comes at a steep cost. It limits women's and girls' participation in all walks of life, denies their basic rights and freedoms, and blocks the equal economic recovery and sustainable growth our world needs. Now is the time for transformative action that ends violence against women and girls.

Dr.C.Sonia, the treasurer deliberated that as this year's UN theme — “UNITE: Activism to End Violence Against Women and Girls” — reminds us, it means standing with activists around the world who are calling for change and supporting survivors of violence. She also insisted to take a stand and raise our voices in support

of women's rights. To proudly declare. We are all feminists. To consign violence against women and girls to the history books.

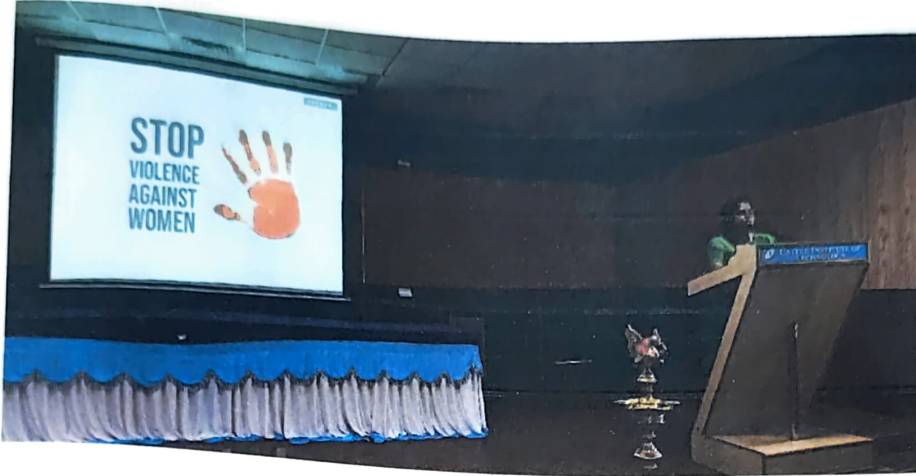

Following this an awareness video presentation was showcased. All the female fraternity decided to show their support to this initiative through their WhatsApp status. Finally the event came to an end.

Report

Event : International Day of Women and Girls in Science

Date : 25.02.2023

Women Empowerment cell (WEC) of United Institute of Technology commemorated the International day for Elimination of Women and Girls in Science at Seminar Hall on 25th February 2023 . The event was coordinated by Dr.D.Gokila, Secretary and Dr.C.Sonia, coordinator of WEC. The event started at 2:30 pm and ended at 4:30 pm.

On the day, the event started with the prayer. Gobika Sriof 2yr welcomed the gathering. Following the Welcome, the Secretary of WEC Dr.D.Gokila addressed the students. She pointed out that Women and Girl's contribution towards technology and science is scanty. Women and girls remain underrepresented across the creation, use and regulation of technology. In the face of escalating global crises, we stand at a crossroads: allow technology to widen existing disparities and further concentrate power in the hands of the few, or put it to work on behalf of a safer, more sustainable, more equitable future for all. She also pointed out that some of the key factors perpetuating gender STEM gaps are:

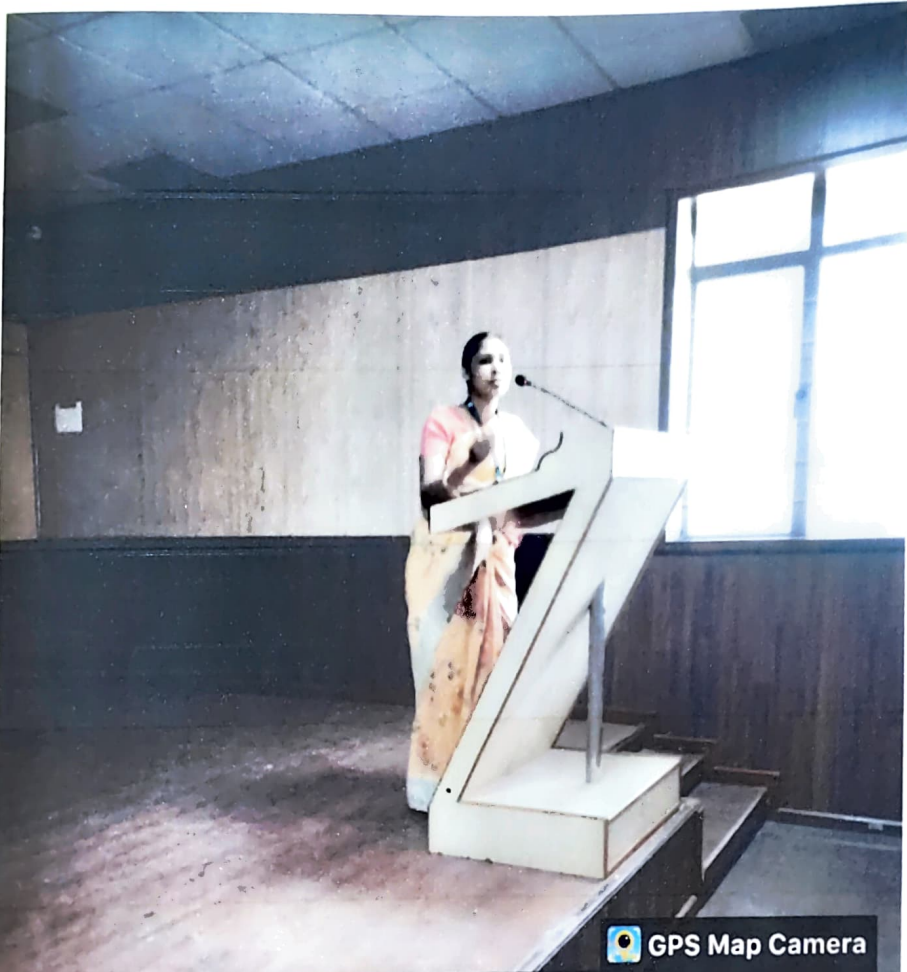

- Gender Stereotypes
- Male-Dominated Cultures
- Fewer Role Models
- The Confidence Gap

After this, a 6 minute video presentation of achieved women's, who faced challenges in their career, was played. Following this a Quiz program was conducted by the students of II year to encourage the audience to enthusiastically involve in the technological developments. The fun-filled event conducted finally the event came to an end with the National Anthem.
