14. Whether AQAR was placed before statutory body ?	No
15. Whether NAAC/or any other accredited body(s) visited IQAC or interacted with it to assess the functioning ?	No
16. Whether institutional data submitted to AISHE:	Yes
Year of Submission	2017
Date of Submission	28-Feb-2017
17. Does the Institution have Management Information System ?	Yes
If yes, give a brief descripiton and a list of modules currently operational (maximum 500 words)	The Institution uses an Information management system by name ROVAN ERP and LMS (Learning Management System). This software is used to make education administration efficient and stress free. It offers quality software solution to administration as well as academics. ROVAN IMS (Informatics Management System) is a Multi user system that can be used as an intranet and internet application. This software helps to manage the resources and serve the students better. The Principal / Faculty can view complete information about a student in a single screen. It will show the personal details, fees particulars, attendance details, mark details, library activities, hostel activities and transport details. This empowers the Principal / Faculty to face the parents with accurate data and have a worthy discussion about the future of the student. The same data can be shared with the students /

parents through Student Login Module. This ensures a smooth flow of information. Rovan reduce lot of manual work and improve the efficiency. It has been built using web technologies. It has several modules such that student module the function includes student profile entry, admission register, and Register no. Allocation, section allotment, promotion, student address list, department wise students list, community wise students list, category wise students list, residential type wise list, city wise students list, first graduate students list, bank loan students list, annual income wise students list, medium wise students list, blood group wise students list and also record the student achievements in sports and other arts. Graduation Module includes Course Completion, Degree Eligible Students List, and Provisional Certificate Students list, Convocation Students List Consolidated Grade Sheet, Tabulated Mark Register and Rank List. The administration module includes Login Information, Changing Password, Users Management, Roles of Management, Backup and Settings.

Part B

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

At the beginning of each academic year, college prepares its proposed academic calendar, which is uploaded in the college website. This calendar is prepared according to the notices and circulars received from the affiliated university. Students are informed about the academic calendar of the college notifying the probable teaching days, dates of internal examinations, curricular and cocurricular activities. Orientation programme is organized every year for newly admitted students to make them aware of the mechanism for curriculum delivery and implementation. Based on the departmental routine, departments conduct meetings for allotment of classes and workload distribution among the teachers. Students are given details of teaching assignment of each teacher at the beginning of a session by the department. Based on the teaching assignments allotted teachers prepare their "course plans" strictly in accordance with the number of credit points mentioned in the prescribed syllabus of each course offered by the departments and according to the number of lecture hours allotted in the university syllabus for each unit. Along with the traditional black board (chalk and talk) method, teachers often use power-point projections during the lectures to demonstrate topics. Lectures of teachers are also uploaded to the MOODLE site for students, an e-learning platform. Class tests/surprise tests are given once in a while and student seminars on certain

topics of the syllabus and periodic reviews of performance of students are also undertaken. Tutorial classes are held in departments within class routine hours to address the problems of slow learners. Students are specially trained to handle assignments, open-house seminars and dissertation to prepare themselves for academic research in future. Interactive sessions with students and parent/guardians are held to identify problem areas and corrective action/measures are taken accordingly. Social networking is also used by departments for interaction between faculty and students beyond the class hours. Student Feedback is collected by IQAC to improve the teaching-learning process of each department.

1.1.2 - Certificate/ Diploma Courses introduced during the academic year

Certificate	Diploma Courses	Dates of Introduction	Duration	Focus on employ ability/entreprene urship	Skill Development
Oracle Certi fication	NIL	20/06/2016	45	Programmer/D eveloper	Programming skill

1.2 - Academic Flexibility

1.2.1 – New programmes/courses introduced during the academic year

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	Yes
Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)

Feedback Obtained

Feedback on the teaching-learning process is received from students as STUDENTS FEEDBACK based on a structured questionnaire framed and approved by the IQAC of the college. The questionnaires are provided by the departments and the students can fill in feedback forms and are collected back by the respective faculty members of the department. The received feedback is then analyzed by the concerned departments and it is also forwarded to the Head of the institution with necessary suggestions based on this feedback. Teachers provide informal as well as formal feedback to the head of the institution on different academic, administrative and other affairs related to the college. Members of anti ragging committee also receive feedback from students through class campaigns. Grievances (if any) and necessary suggestions can be registered to the Grievance reprisal cell committee of the college, the cell composition is altered every year at the beginning of academic year. The Alumni feedbacks are also collected by the departments on the graduation day with a set of questionnaire prepared by the IQAC. Departments receive feedback from parents through parent teacher meetings and discuss different issues related to the overall development of their ward.

CRITERION II – TEACHING- LEARNING AND EVALUATION

2.1 - Student Enrolment and Profile

2.1.1 - Demand Ratio during the year

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Mentoring of students is conducted by the departments of the institution. It is based on the following objectives: • To increase the teacher-student contact hours • To identify and address the problems faced by slow learners • To encourage advanced learners • To decrease the student drop-out rates • To prepare students for the competitive world • To render equitable service to students Every year, departments individually organize sessions on the class commencement day for students of every semester and explain the mentoring system followed by of the department and the department faculty. In the mentoring process, all necessary information related to the student such as the contact number, email-id of the student, family income, details of the family etc are initially collected by the department through the student green card. The students are divided into groups of 10-15 depending on the number of students. Each group is assigned a Faculty mentor who would perform mentoring duties. It is the practice of Mentors to meet students individually or in groups. Mentors discuss with parents during parent-teacher meetings and try to identify the problems faced by students and related issues. In isolated cases parents are called for counseling /special meetings with the Principal by the suggestion of the Mentor. If a student is identified as having weakness in particular subject, it is the duty of the Mentor to apprise the concerned subject teacher. Departments maintain the records of class tests/surprise tests, attendance records, records of student seminars etc related to the reviewing of the performance of the students. Faculties of the departments maintain interaction with students through individual meetings, social networking and Learning Management System. The institutional practice of Mentoring has considerably enhanced the campus environment and brought about: • Enhanced contact hours between Mentors with their respective students • Improvement in students' attendance • Minimized student drop-out rates (apparently due to Mentors' intervention before a student falls short of attendance or has been regularly abstaining from classes) • Identification of slow learners for conducting Remedial Classes • Advanced learners identified, motivated and honored by giving awards and cash prizes

Number of students enrolled in the institution	Number of fulltime teachers	Mentor : Mentee Ratio

2.5.2 – Reforms initiated on Continuous Internal Evaluation(CIE) system at the institutional level (250 words)

As per the instruction by affiliated University three internal assessments are conducted for every semester. For first internal assessment the questions are based on the first 40 completion of the syllabus, for second internal assessment the question are based on the next 40 completion of the syllabus, for third internal assessment 3 the questions are based on the complete syllabus. Each internal assessment is conducted for 100 marks for three hours. In addition to that, slip tests of 30 marks for one and half hours are conducted by the departments before each internal assessment. Marks from the slip test and the internal assessment are converted for 100. These marks are uploaded in the affiliated University examination portal. Online tests also from a part of assessment.

2.5.3 – Academic calendar prepared and adhered for conduct of Examination and other related matters (250 words)

The institution is an affiliated college. Examinations are conducted at the end of each semester by the affiliating University. College informs students about the university notices and circulars related to the examinations from time to time through student notice board, class notice board, departmental notice boards and also verbally by the faculty members of the department. All departments conduct internal assessment for the students and they are well informed about these internal examinations date in advance by the DECIM (Department Exam Cell Co-ordinator Internal Mode) of the department. Internal assessment dates are also provided by the affiliating University to be conducted within that period. During the internal examinations the students are coached in the morning and the exams are conducted in the afternoon. Internal assessment dates are also provided by the college in the proposed academic calendar prepared at the beginning of each academic year.

2.6 - Student Performance and Learning Outcomes

2.6.1 – Program outcomes, program specific outcomes and course outcomes for all programs offered by the institution are stated and displayed in website of the institution (to provide the weblink)

CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

Decentralization The institution has a mechanism of providing operational autonomy to various functionaries in order to ensure a decentralized governance system. 1. Principal Level Principal is the member secretary of the governing body and chairperson of the IQAC. The Principal nominates different committees for planning and implementation of different academic, student administration and related policies. 2. Faculty level The process of successful implementation of declared policy depends mainly on the commitment of the faculty members. Hence all possible and feasible action plans are discussed in a democratic way in the departmental meetings and all valid suggestions made by the faculty members are taken into consideration and the same is conveyed to the Principal, who reports the progress periodically to the top management. The HODs are entrusted with the responsibility of monitoring the progress as well ensuring the active participation of every staff member in the process. Following committees are constituted for monitoring various functionalities: • Discipline Committee • Anti Ragging Committee • Anti Sexual Harassment cell • Grievance cell • Centre for Up skilling And Empowerment (CUE) • Women Empowerment Cell (WEC) • Entrepreneurship Development cell (EDC) 3. Student level Students are empowered to play important role in different activities. Functioning of different secretaries of students in department level (listed below) further reinforces decentralization. • Student Secretary • Student Joint Secretary • Treasurer • Joint Treasurer • Office Bearers • Class Representative • Class committee members 4. Non-teaching staff level Non-teaching staff take part in discussion. Suggestions of non-teaching staff are considered while framing policies or taking important decisions. Participative management The institution promotes the culture of participative management at the strategic level, functional level and operational level. • Strategic level The Principal, governing body and the IQAC are involved in defining policies procedures, framing guidelines and rules regulations pertaining to admission, examination, discipline, grievance, support services, finance etc. • Functional level Faculty members share knowledge among themselves, students and staff members while working for a committee. Principal and faculty members are involved in research activities and have published papers. • Operational level The Principal and faculty interact with government and external agencies. Students and office staff join hands with the Principal and faculty for the execution of different academic, administrative, extension related, co-curricular and extracurricular activities.

8. Future Plans of Actions for Next Academic Year

Strengthening the research activities in the institution: Staff members are to be motivated to take up problems from industries and find the solutions. The study may be converted into a technical paper for probable publications in journals of repute. For case studies, technical reports may be prepared and the idea stared with the students and the industries for possible implementation. Promoting internal examination system: Fine tuning the operation of internal examination cell modifying the weightage for various tests, hall arrangements and evaluation centre, making specific observation of the scripts corrected etc. Keeping pace with the present methods of teaching learning process, e-contents are to be developed and uploaded in the Learning Measurement system (LMS). Faculty is to be encouraged to prepare quizzes, study materials and typical questions following the pattern of question paper. Preparation of question bank using past university papers to give a feel of the question papers. Questions from autonomous institution and other Universities are also to be included for discussion. Preparation of students in their domain: students are to be guided to have more of practical and domain knowledge through studying all the equipment /machines of the laboratories they have in any semester. This is likely to make them identify, understand the working of subsystem and the equipment as a whole.. Preparation for new regulations: Infrastructure and learning resources are to be developed in accordance with the requirements of the new regulations R-2017 of the Anna University. All the above are to be effected through discussion with the management and the Internal Quality Assurance Cell.
