

### 7.3 Institutional Distinctiveness

**United Institute of Technology college aspires to become an institution known for**

1. Preparing students as an Industrial Ready Engineers by providing value added courses in the respective departments like
  - Certification course of CCNA
  - Certification course of java
  - Certification course of oracle
2. Promoting Industrial projects for students to learn in contemporary technology
3. The Students performing well in their academic are provided with a stipend of Rs.2000 per month to encourage their academic learning activities.
4. Various cultural activities and carnival are done to showcase students' talents and their uniqueness in various aspects.
5. Value added programs are offered as an interwoven feature by the center for upskilling and empowerment.
6. The Institute identifies the students with special skills and the students are encouraged and promoted to showcase their talents in the national and international forum like
  - Silambam
  - Kalari
  - Yoga

Students are encouraged with a prize amount or memento for the categories like

- ✓ Best performer in academics
- ✓ Best performer in Co-Curricular activities
- ✓ Best performer in Social service activities

To be an extra ordinary student one has to show their talents not only through academics but also by cultural activities. To showcase their built-in talents and to express their religious uniqueness various cultural activities are done like

- ✓ Onam Celebration - Cultural Activity
- ✓ Pongal Celebration - Cultural Activity

✓ Carnival – Students gathering (Talent show)

Various Value added programmes are included in the general time table to make students to learn about special tools related to core industries and to make them industrial ready engineers. MoU has been signed with leading industries to understand the technological gap between the industries and institute for students and faculty members.
